## **DISCIPLINE POLICY**

We use positive techniques of guidance, which include encouragement, redirection, anticipation, positive reinforcement, and elimination of potential problems. We do not spank, deny food, shriek, or call children derogatory names. Sometimes a child's behavior requires that the home and school, work together. In that case, the teacher, director, or person in charge will contact the parent. We reserve the right to withdraw a child from the program if the child is a constant disturbance to the other children, repeatedly injures other children, or continually behaves in a manner that threatens his/her own safety.

Our discipline policy is built around our understanding of child development. Our goal is to allow each child to find and develop their own personal self-management skills. As teachers and staff, we offer children choices, so they feel powerful in their ability to gain self-control. We use positive behavior management techniques such as positive phrasing and "I" statements as ways to further develop self-discipline. In situations where children are having a challenging time managing negative emotions, they may be removed from the over-stimulating environment to a quiet area where a teacher or member of the administrative staff can work one-on-one to resolve the situation. Families will always be informed if a situation such as this has occurred. If a child continues to have a challenging time, a meeting with the family may be requested.
